PROJECT EXPERIENCE

Archeglobal – Airtime and Data Purchase Dashboard App

- Developed the frontend of an Airtime and Data Purchase Dashboard App, focusing on creating a responsive, user-friendly interface using react.
- Collaborated closely with a backend developer to integrate frontend components seamlessly with backend APIs, ensuring efficient data handling and real-time updates for user.
- Implemented reusable components, managed app state, and optimized performance

Her Dream Initiative - Non-Profit Organization Website

- Built a responsive and dynamic website for the non-profit organization Her Dream Initiative, using Next.js App Router.
- Developed multiple single-page application (SPA) pages to enhance navigation
- Implemented email functionality for user outreach and communication, ensuring streamlined contact and engagement for the organization.

Quizzical Trivia App – Determine user's knowledge on some questions

- Developed a quiz application called Quizzical using React and the Open Trivia Database API to provide users with a variety of computer questions across multiple categories

EXPERIENCE

Frontend Developer, DevPally, remote

- Designed and implemented responsive UI component using HTML, CSS, Javascript and React.
- Worked with backend developer to integrate APIs and ensure seamless data flow.
- Collaborated with designer to translate designs into functional and responsive UI
