SKILLS

Languages	Python	JavaScript	HTML	CSS	SASS	TypeScript
Technologies and Framework	React.js	Tailwind	NextJs	BootStrap	Git	vsCode	Figma	Wordpress

EXPERIENCE

DevPally

Frontend Developer   *remote*

- Collaborated with designers to translate Figma designs into fully responsive and visually appealing user interfaces.

- Worked closely with backend developers to integrate APIs and ensure seamless data flow between the frontend and backend systems.

- Authored comprehensive documentation for key features and workflows, improving team understanding and onboarding processes while I also reviewed pull requests to maintain code quality, align with project standards, and ensure optimal functionality.

Feexet Limited

Wordpress Developer   *remote*

- Developed interactive, animated WordPress websites using CSS, JavaScript, and GSAP, and built/customized PHP functionality while debugging errors.

- Architected and launched WooCommerce e-commerce platforms, integrating payment gateways (Paypal), custom product catalogs, and dynamic checkout workflows.

- Built dynamic, data-driven sites with Crocoblock's JetEngine—defining custom post types, meta fields, listing grids, and front-end filter forms to empower content editors.

NOTABLE PROJECTS

Her Dream Initiative Website   **Sep 2024 - Oct 2024**

Frontend Developer   *Remote*

- Built a responsive and user-friendly website for a non-profit organization using Next.js, showcasing their mission and projects through an intuitive design.

- Integrated email functionality using Nodemailer for seamless communication, allowing users to contact the organization directly through the website.

- Developed multiple single-page application (SPA) views, ensuring optimal performance and smooth navigation across all devices.

Airtime and Data Purchase App   **Jan 2024 - Mar 2024**

Frontend Developer   *Arche Global, Remote*

- Developed the frontend for a dashboard application that facilitates airtime and data purchases using React, implementing core features from authentication to transaction history.

- Consumed REST APIs to display user account details, airtime balances, and payment history, ensuring data accuracy and responsiveness.

- Made the application fully responsive, optimizing layouts and components for seamless performance across desktop and mobile devices.

- Collaborated with a backend developer to integrate new APIs, debug issues, and enhance the overall user experience.

Shopping Cart Application   **Aug 2024 - Sep 2024**

Frontend Developer   *Independent Project*

- Developed and designed a dynamic shopping cart application using Next.js, Tailwind CSS and TypeScript, focusing on seamless state management with Redux and also delivering a responsive and visually appealing interface optimized for all devices..

- Implemented features such as adding and removing products, calculating totals, and updating quantities, ensuring a smooth and intuitive user experience.

- Collaborated with a mock API (FakeStore API) to fetch and display product data, ensuring real-world functionality for the application.

EDUCATION

Bachelor of Science - Geology   **Sep 2017 - Sept 2024**

Obafemi Awolowo University   *Ile-Ife, Osun State*

OTHER SKILLS

- Problem solving, Critical Thinking, Team player, testing and Debugging, Creativity, Curiosity, Versatility, Optimistic, Passionate, Art and Design.
